Haris Imran

Computer Science Student | Front-End / React Developer

PROFESSIONAL SUMMARY

Motivated Computer Science student and aspiring front-end developer with an ADP in Information Technology, currently pursuing a BS in Computer Science at Government College University Faisalabad. Hands-on experience building responsive web interfaces and academic software projects using React, JavaScript, HTML, CSS and Tailwind CSS. Advanced Microsoft Office user with practical exposure to Python, Java, C++, MySQL, design tools and digital content creation. Known for a strong learning mindset, problem-solving approach and the ability to turn ideas into clean, usable digital products.

CAREER OBJECTIVE

Motivated and enthusiastic Computer Science student currently pursuing a BS in Computer Science, with a completed ADP in Information Technology. Passionate about Front-End and Web Development with practical skills in React.js, JavaScript, HTML, CSS, Tailwind CSS, and Advanced Microsoft Office. Seeking an entry-level opportunity where I can apply my technical knowledge, contribute to real-world projects, enhance my problem-solving abilities, and continuously grow as a professional software developer.

SELECTED PROJECTS

E-Commerce Web Application

Built a responsive shopping interface with product cards, navigation and reusable front-end components using React and modern CSS/Tailwind concepts.

Personal Portfolio Website

Designed and developed a responsive portfolio to present profile, education, skills, projects and contact information with a polished UI.

Student Life Operating System

Created a student-focused productivity/project concept to organize academic activities, tasks and student-life workflows in one interface.

Healthcare Dashboard

Developed a dashboard-style interface for presenting healthcare information with clear cards, sections and responsive visual structure.

Coffee Corner Website

Built a responsive restaurant website using HTML and CSS with sticky navigation, hover effects, transitions, transforms, pseudo-elements and linked page sections.

JARVIS AI Assistant

Developed and iterated on a voice-enabled AI assistant interface using JavaScript, FastAPI and local AI tooling, including speech input and response workflows.

TECHNICAL PROFILE

- Front End: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, responsive layouts
- Programming: Python, Java, C++ fundamentals; DOM, functions, loops, arrays and API usage
- Database & Tools: Basic MySQL, VS Code, Git/GitHub workflow familiarity
- Productivity & Design: Advanced MS Office, Canva, Adobe Photoshop; photography and video editing

STRENGTHS

Fast learner • Growth mindset • Communication • Teamwork • Attention to detail • Time management • Continuous learning
